

# Prices and Services 2019

From S Barker Electrical Ltd

*Amended January 2019*

*(So please throw out your old one!)*

Find Us On Facebook <https://www.facebook.com/ukelectrician>

# S Barker Electrical Ltd

Now you can use Facebook Messenger to chat directly to me in the usual way ... ALSO to get Prices.

Give it a go (It's fine to play, it won't break) ...

Head over to our Messenger Chat [HERE](#)

It's more useful than you first think! And can do a lot more than you expect!

**ALSO** you can enter shortcut codes to jump straight to what you need assistance with:

Just enter **s9** to see the full list of shortcut codes. **Our Fastest Service Yet!**

Here are just **SOME** of the features you can get [HERE](#):

- General discussion (let's help with that problem) and Download ALL our Guides
- View full information about all Services (Videos, FAQs and other information)
- Check our Prices
- Book a FREE Quote Appointment
- Check the coverage areas (Simply enter the first half of your postcode e.g. LS12, BD4, WF10 etc)
- Book in a job and choose your preferred date and time directly in my calendar
- Call us in person from within Messenger (Whether you are on a PC or SmartPhone)
- See where all our Independent Reviews are, across several different sites

... and much more being added soon! The direct Web Address is <https://m.me/ukelectrician>

# S Barker Electrical Ltd

## Electrical Condition Reports

These are for the following markets:

- Domestic
- Commercial
- Industrial

An Electrical Condition Report is required for various reasons:

- For Homeowners or Buyers who want to ensure their property is safe or has no issues that may be costing them more on their electricity bills (Old wiring can actually increase your running costs when it is degrading in quality!).
- For Landlords (Safety Certificates) to ensure they are keeping their tenants safe
- For Offices, Shops, Workshops, Factories and Warehouses to stay in line with their insurance companies, as some may not pay out if an incident occurs. Also for liability, if someone is to be harmed.

This takes from 2 hours upwards and the power is off for much of this time to allow full testing to be done. However if this is not possible (for example production equipment, lack of availability to an area, or server equipment) then a limited amount of the testing can still be done (visual mostly) although the full test is recommended to get a full picture of the overall condition.

**Pricing - Get an up to date price here: <https://www.sbarker.co.uk/job-booking-form/>**

**BUNDLE DEAL - Get Domestic EICR & PAT Testing (See next page) and get £40+VAT off PAT Testing**

**OR Visit our NEW Facebook Messenger live chat [here](#) and enter the shortcut code s20 to get started.**

**Resources: Watch the video [here](#)**

# S Barker Electrical Ltd

## PAT Testing

This is for the following markets:

- Homeowners that want peace of mind that equipment is safe
- Landlords, for limiting their liability in the event of an incident with an appliance
- Musicians and Entertainers (Required by many venues before you are allowed to use equipment at the venue)
- Offices, Shops, Workshops, Factories and Warehouses to ensure your equipment is safe to use (and protection against any issues occurring)
- Construction Sites (mostly use 110V equipment)

PAT Testing checks all the items that plug in to the mains (or 110V transformer equipment, 415Volt equipment) to ensure it is not dangerous to use. This consists of a visual check, as well as electrical testing of the appliance with the very latest PAT testing equipment.

We use state of the art equipment that uses battery power, to ensure that:

- Your equipment does not get damaged (some mains testers cause slight deterioration!)
- The tests are done as fast as possible to limit any downtime
- Our experience in high production allows us to plan the work well to minimise disruption

**Pricing - Get an up to date price here: <https://www.sbarker.co.uk/job-booking-form/>**

**BUNDLE DEAL, Get a Domestic Electrical Inspection and save £40+VAT on PAT Testing**

**OR Visit our NEW Facebook Messenger live chat [here](#) and enter the shortcut code **s21** to get started.**

# S Barker Electrical Ltd

## **Fuseboard Upgrades (Known as Distribution Boards)**

This is replacing your old fuseboard with a modern RCD protected Distribution Board (with resettable Circuit Breakers). The RCD protection on these boards offers maximum protection which is not given from standard fuses or circuit breakers alone.

For the following markets:

- Domestic (Now require the new metal “Amendment 3” Boards, but we have kept the price the same as the previous type, no price increase)
- Commercial – These are generally large boards and may even be 3-phase boards
- Industrial – Typically 3 phase boards

**HOWEVER** because these are so sensitive to issues, an **Electrical Condition Report** must be carried out first, to determine if your wiring will be compatible with a new Distribution Board.

**Pricing – Get an up to date price here: <https://www.sbarker.co.uk/job-booking-form/>**

**OR Visit our NEW Facebook Messenger live chat [here](#) and enter the shortcut code **s24** to get started.**

**Resources: Watch the video [here](#)**

# S Barker Electrical Ltd

## **Fault Finding (also known as Callouts)**

**WE OFFER FIXED PRICE FAULT FINDING AS WE BELIEVE WE SHOULD BE CONFIDENT IN OUR WORK!**

**(After all, Simon's fault finding experience goes right back to 1988 in the Car Industry!)**

Many companies will charge an hourly rate THEN charge each additional hour, just to cover their own incompetence. BUT if anyone is good at fault finding, then they should be able to find faults fast! So YOU should not be penalised for this.

Fault finding is when you call up and tell us that something has stopped working (Something that was previously working ok). If something is cracked or needs to be swapped then this would be a replacement (See next page). But if the power has gone off on one of more point (light, shower, socket, etc) then we will do a Fault Finding Callout

**Pricing – Get an up to date price here: <https://www.sbarker.co.uk/job-booking-form/>**

**OR Visit our NEW Facebook Messenger live chat [here](#) and enter the shortcut code **s22** to get started.**

**Resources: Watch the video [here](#)**

# S Barker Electrical Ltd

## Replacements

This might be any of the following:

- Light fittings (A Pendant/Baten or something that you have just bought yourself)
- Light switches (either similar replacement or upgrade to chrome, etc)
- Bathroom Lights (Sealed type suitable for that zone)
- Ceiling Spotlights (Standard or Shower), standard or LED
- Ovens and Hobs
- Showers
- Smoke, Heat or Carbon Monoxide detectors
- Extractors (Standard, Timer or Humidity Sensor)

**Pricing – Get an up to date price here: <https://www.sbarker.co.uk/job-booking-form/>**

**DISCOUNTS AVAILABLE – Add multiple Quantities OR add multiple jobs at same time, to ensure that the minimum TOTAL charge is waived. This is also applied automatically to all written quotes.**

**OR Visit our NEW Facebook Messenger live chat [here](#) and enter the shortcut code **s23** to get started.**

**Resources: Watch the video [here](#)**

# S Barker Electrical Ltd

## **FULL or PART Rewires**

This is for full or partial rewire for:

- Domestic Houses
- Offices
- Factories (3 phase)

This requires a quote to be able to see exactly what is required.

## **QUOTES ARE FREE OF CHARGE**

You will be sent a fully itemised, written quote (sent by email)

To get a quote, use this link:

<https://www.sbarker.co.uk/job-booking-form/>

**OR** Visit our **NEW** Facebook Messenger live chat [here](#) and enter the shortcut code **s25** to get started.

**Resources:** Watch the video [here](#)

# S Barker Electrical Ltd

## Anything Else

This is to book a FREE, no obligation quote for anything else not mentioned above. If we don't do it we will tell you, but there are some things that we do that are not listed on the price list or booking system.

So for this reason, we need to come out and take a look to quote accurately.

These things are not limited to but include the following:

- Hot Tubs
- Garage Wiring
- Garden Wiring (Seasonal from around April till September)
- Sheds, Summer Houses, Conservatories and other buildings
- Office Blocks
- ... anything else you may need us to consider, just ask!

To get a FREE Quote, use this link here:

<https://www.sbarker.co.uk/job-booking-form/>

**OR** Visit our **NEW** Facebook Messenger live chat [here](#) and enter the shortcut code **s9** to get started.

**Or just contact us on 0113 436 0143**
